Fabien
REBOUL
Red

*Et Pourquoi pas ?... Un peu de Toi, beaucoup
d'Espérance et du T'em T'em à la folie !*

*"Ever since I settled in this area, my goal has been to
make wines that are most representative of French
culture : finesse, elegance, freshness."*

My vine is sustainably grown with the use of vegetal composts and no insecticides. The soil is ploughed in each row. The greatest of care is given to the vegetation itself.

Harvesting is done by hand and burgundy type vinification is used. As for the wines, they should resemble the wine producer.

Rosé

My Wines :

What I try to do is make white wines that are fruity but which also possess some freshness and minerality. My rosé is a subtle blend of grape and will release all the aromas and fruity wine with low acidity, drinking fresh. The red wines are fine and elegant with marked tannin but one which never dries the mouth. The top of range wines are worked in new wood with an ageing period ranging from 16 25 months.
